

Discussion of HB3090 and HB3091

- Looking to see if it has been implemented, if it has been implemented well, and if it has any impact.
- HB2023 are required to share hospital policies and make them available to the public.
- Jerry and John sent some questions to Keny-Guyer. Jerry asked her to request copies of the policies. Would like follow up about whether she got and received the requests. Between now and April 8th won't follow up. She would be willing to have an informational hearing after April 8 and would welcome specific questions to be asked.
- There's an opportunity for the Alliance to support an informational hearing—can help shape who should be asked to the hearing. April 9th – contact Alissa to request an information meeting. Hearing should happen between April 9th and June 30th
- Who within OHA is responsible for generating the report on discharge compliance
- Dana Selover and Melody Bernall – public health are the two folks that Doug has talked with. One section has oversight of hospitals.
-
