

Evaluation and Data Committee: Thursday, January 7, 2020 9:30 a.m. – 11:00 a.m.

Committee Members in Attendance: Co-Chair John Seeley, Co-Chair Roger Brubaker, Chris Sorvari, Debra Darmata, Elissa Adair, Grace Bullock, Jill Baker, Jon Rochelle, Joseph Stepanenko, Karen Cellarius, Sandy Bumpus, Sarah Spafford, Shanda Hochstetler, Spencer Delbridge

Committee not Members in Attendance:

Staff: Annette Marcus, Jennifer Fraga, Kris Bifulco

Guests:

Please join my meeting from your computer, tablet or smartphone.

You can also dial in using your phone.

United States: [+1 \(872\) 240-3412](tel:+18722403412) **Access Code:** 996-675-989

Focus of the Data and Evaluation Committee: Advising and supporting the process of developing the next YSIPP.

Time	Topic	How	Notes / Attachments
9:30	Welcome, Announcements, Consent Agenda	Table items that have not been resolved	Data we want: How many are trained in the state Committee: Also be a learning collab Working with county level SP and help them access and have data that would be beneficial to them
9:40	December Action Items Check-In John Seeley, Roger Brubaker	Previous Action Items: -Status of Letter to OHA regarding data recommendations from Alliance	
9:40	Work on Creating a Work Plan for Committee	Specify what metrics related to implementation are available and where they are located / do we have access to them? -Identify 10 Key domains: -Workforce (do we have enough BH workers to deliver services and are they distributed appropriately) -Mental health services (types, access, engagement, utilization, efficacy) -Access and utilization	-Would it be helpful to think through some key categories for using data? (1) Needs assessment to help us target or tailor interventions and prioritize (2) Comparative benchmarking (national, state, regional, county as possible) (3) Public education (as Roger mentioned including slides in QPR) (4) Evaluation -- are interventions having an impact -- this is hard because we do not know what the rates would be without intervention

		<ul style="list-style-type: none"> -Suicide attempts, Suicidal ideation, Hospitalization -Training (frequency and who is being trained) (gatekeeper vs. clinician training) -Community indicators (stigma / attitude towards SP potentially knowledge about suicide) -Risk / protective factors (Social support networks) -Behavioral health system preparedness 	
10:55	<p>Standing Agenda Items that won't be Reviewed / Discussed during meeting:</p> <p>Data Review</p> <p>Check-In on Google Sheet Research Tracker</p>	<p>YSIPP 2.0 Update</p> <p>Essence Report</p> <p>HB 3090 Report</p> <p>Recent Reports / Studies from OHA (such as Healthy Teens)</p> <p>Discuss how this committee will work to distill data from YSIPP 2.0 input</p> <p>Create survey to be sent out to this Committee with the purpose of finding gaps in available data</p>	

		for the next YSIPP (what is currently available for U of O to use and what needs to be researched). Keep in mind, “what data would be useful in your role in suicide prevention?”	
10:55	Set Next Agenda / Committee Business		<p>- Geraldyn from Health Policy and Analytics will be the person to invite to talk about what medicaid data is/can be available. Geraldyn.BRENNAN@dhsosha.state.or.us</p> <p>Long-ish term goal – create / update SMART Goals for this committee (see below agenda for potential Committee projects and previous Committee SMART Goals for reference)</p> <p>-Potential small / task groups outside of committee</p>
11:00	Adjourn		

Potential tasks for Data & Eval Committee (brainstorm ideas)

- Catalog a list of data sources.
- Learning collaborative for people working in suicide prevention who are working in data, best practice, gap identification.
- Score Card—assess how we are doing to get aligned with national standards of suicide prevention data. Focus on how to improve this.
- Improving the data literacy and competency of people across the state.
- Build the capacity of the field to be more data driven
- Data coordination—what metrics are most important to collect on a local level and how do we feed these into the larger scheme of things. Review the data dashboard on a routine basis
- Who holds the task of providing data sources and the data dashboard for us to review
- Think tank brain trust for individual research presentations.
- What are the universe of data metrics? How does this connect -- protective and risk factors
- We review the data, understand the strengths and gaps, a forum for learning and supporting each other who are doing in research.
