Projected Timeline Through July 2022

Projected Policy Timeline Long Session 2023

Workforce Committee Update-HB 2315

- **HB2315 Problem Statement:** BH Providers are not adequately trained in suicide intervention, management and treatment strategies, and legislative mandate beginning 2022 require the workforce to receive continuing education and there is not an existing structure to do that.
- **Strategic Link:** Appropriate treatment and management of suicidality requires an equipped workforce, which is a strategic pathway in the YSIPP.
- **Ease/Impact:** Med Difficulty/High Impact

- **Current State:** Suicide prevention training opportunities exist, providers are required to report *whether* they have taken suicide prevention training, no clear list of what counts for each license or certification, no funding to develop Oregon specific training requirements, there are other models (e.g. Washington) to build on, there is limited funding for specific provider training available (CMHP;s, schools, etc), licensing boards have a process for continuing education credits and requirements, legislation has passed and is effective July 2022, OAR's need to be revised.
- **Big Picture/Future State:** Every BH in Oregon provider has a baseline understanding of how to assess and support suicidal people. A list of appropriate and approved trainings that meet the requirement, the trainings are cost effective for providers, a process is in place to know which trainings providers have taken, a process to link this to providers confidence and efficacy in suicide treatment.

- a. Partner with professional behavioral health organizations (e.g. NASW, MHACBO) to educate BH workforce on requirements and help to develop standards for developmental levels of training - such as AMSR, ASIST, QPR
- b. Partner with OHA to develop training resource page which identifies which type of training
- c. Consider whether funding is needed to support training initiatives for BH workforce
- d. Alliance will annually review SB 48 Report and make recommendations to OHA on professional development based on evaluation of results
- e. Determine if current policy, 2 hours every 2 years, is working or needs to be adjusted through another policy ask

Workforce: Pursuing Healthcare CEU Legislation

Healthcare CEU Problem Statement (Add data)

Most people who die by suicide have seen a physician within 6 months of their death; however, physicians and other healthcare workers often have only a minimal understanding of suicide assessment, treatment and management. Healthcare workers are not currently required to have this training.

Strategic Links to YSIPP

- "Appropriately Trained Adults" - Youth-serving adults (including the peer support workforce) receive the appropriate level of training for suicide prevention (basic awareness, enhanced, and/or advanced) and are retrained appropriately.
- "Integrated Care" - Oregonian young people will receive integrated models of healthcare in primary care settings and schools (i.e. behavioral health is available and access through primary care or school-based health centers/ school based mental health).

Proposed Solution: Require CEU's

Next Steps:

Learn more about legislation in Washington, California and other places

Identify and engage key champions and potential opponents in healthcare sector and in legislature.

Determine “who” (nurses, doctors, primary care only, acupuncturists, everyone?) should be included in legislation

Are there exceptions to the requirement (e.g. grad school training, optometrists etc.)

Develop legislative concept and submit for 2023 long session

Update Equity Committee-Proposed Process

- Review ASIPP Equity Screen w committee and YYEA
- Develop vision/mission (or scope) for equity committee
- Shared leadership model
- Determine priority action areas:
 - Membership
 - Strategic Partnerships
 - Using Equity Lens
 - Partner w CFBHU Equity Work
 - Focused efforts to engage/connect

Jamboard Comments re Vision and Direction

We want to move from tokenization to authentic community building

Better onboarding so all feel welcome.

Honoring self-determination and agency – letting go of “fixing” people

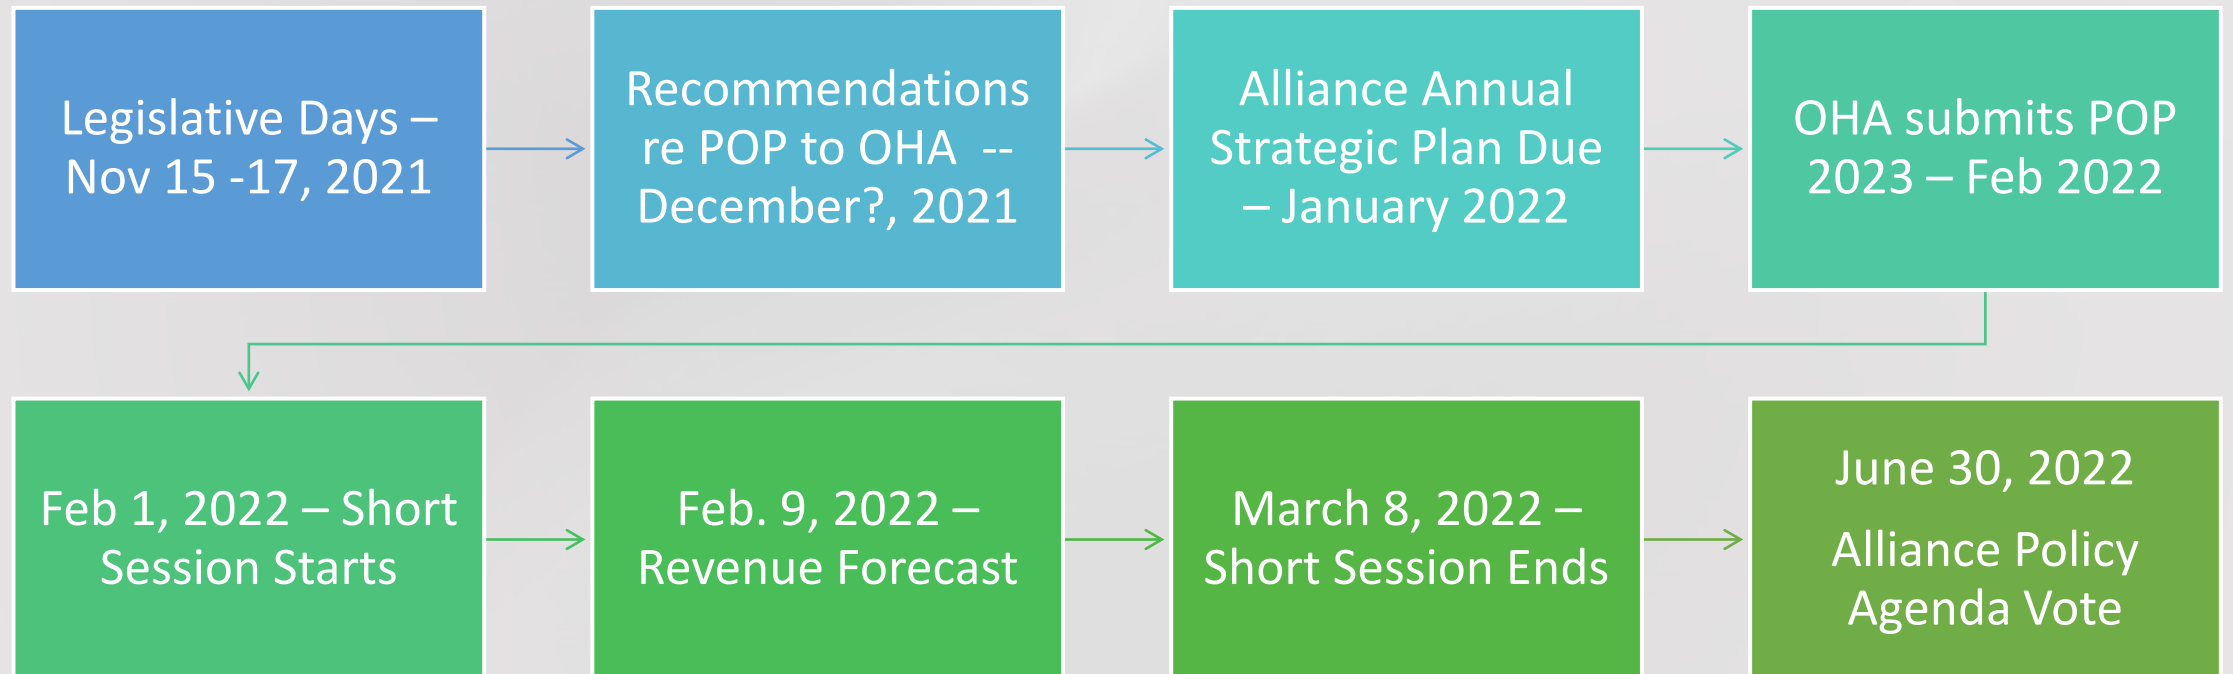

Create or support diverse/culturally humble/responsive resources

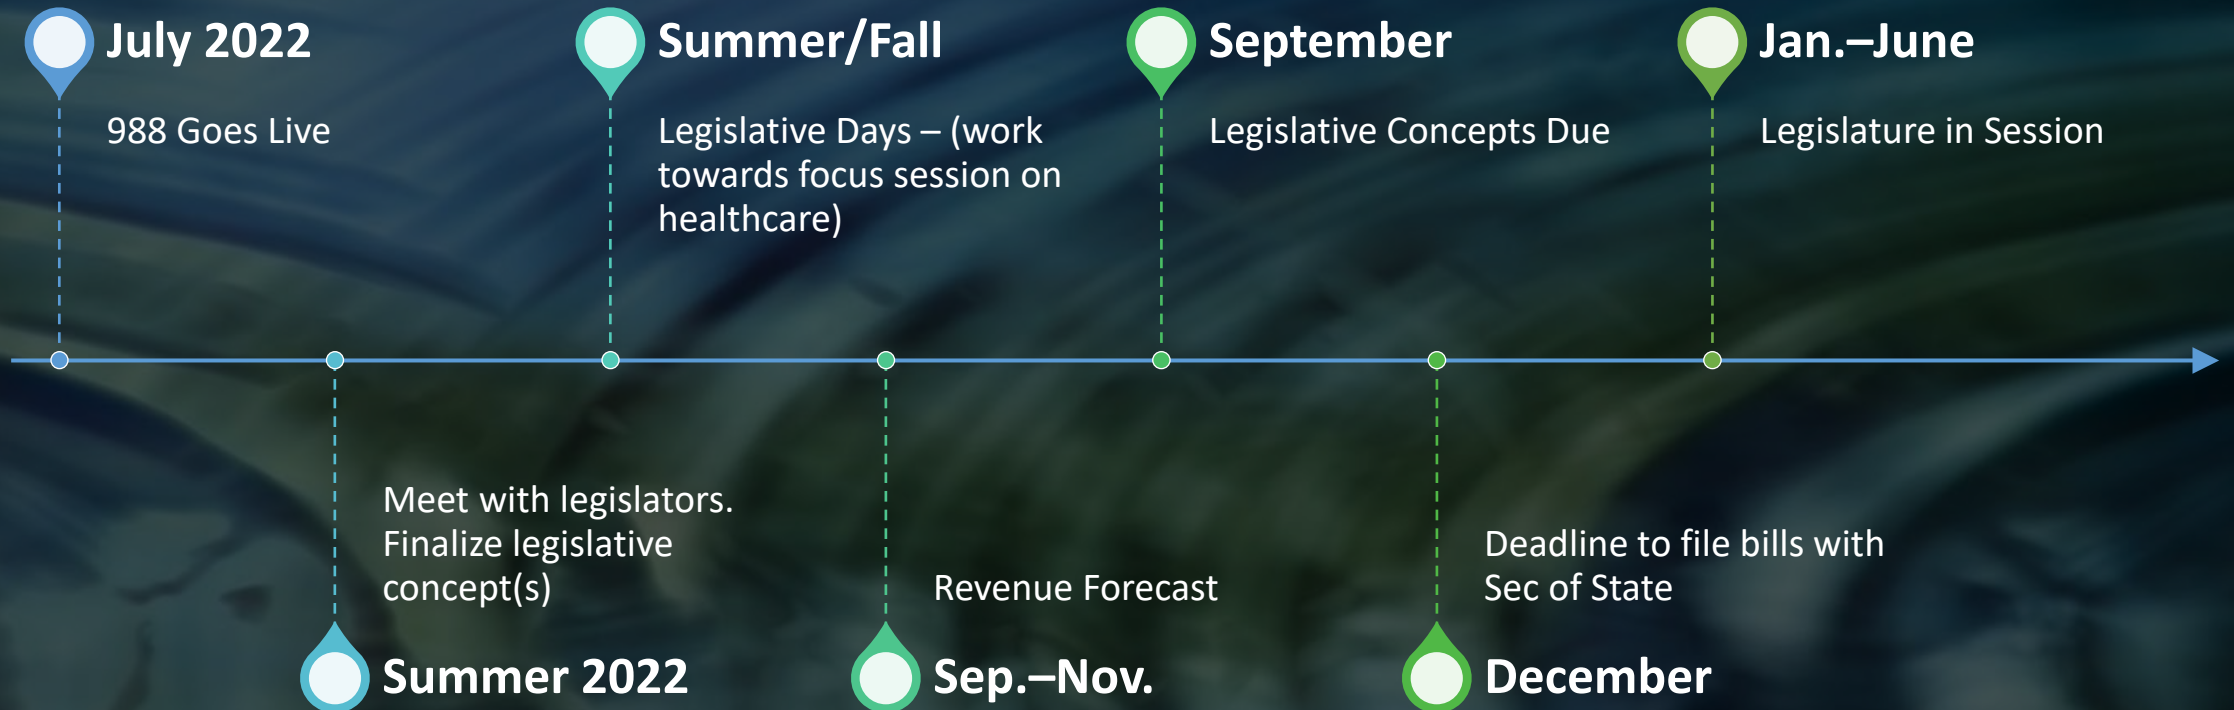

Uplift lived experience. Normalize feelings of despair and that people can live through them

Projected Timeline Through July 2022

Projected Policy Timeline Long Session 2023

Objective - How can we use the current strengths of the Alliance to further engage youth and young adults? Our goal is to have youth feel like a valued part of the larger discussion. Youth will be able to contribute to larger Alliance meetings and understand what information is being presented.

- + Strength : Youth involvement in larger discussions

Continue to incorporate time to pause and reflect in smaller groups / breakout sessions with at least one youth present in each room.

- + Strength: Alliance member's provide detailed updates about committee and policy work

Provide youth with at least one quarterly overview of discussions and updates that will be presented at each quarterly alliance meeting. Meetings would review work that was discussed / presented in the previous quarterly meeting and how that ties into the upcoming meeting in addition to an agenda overview. Meetings should be at least 2 days before quarterlies to allow youth to process what they heard and think about questions / comments / how they want to engage. Presenters would be a team consisting of at least a youth executive member, YVEA youth liaison, and Alliance youth liaison with the hope that 1-2 Alliance chairs or Alliance partners would be able to attend as well.

- + Youth and Adult members have a desire to share information in an accessible way and engage with one another as a cohesive team

Who/What/When/Why Questions Answered during youth presentation meetings- What is being done, Why is it important, Who is the point of contact, Timelines and meeting dates etc..

Alliance members are able to attend presentations and give updates to youth. This will help build connections between adult / youth members of the committee.

Committees provide information to youth regarding expectations around the type of feedback or involvement they need - What are you looking for in terms of lived experience?
