What am I asking of committees/advisory groups/SPIP teams?:

1. Review of your YSIPP initiative(s) to assess progress. What's left on your plate?

2. Thinking of 2023 bandwidth and priorities:
- What do we want to keep working on?
- What do we think we'll have bandwidth for?
- Is there a project/initiative that we want to let go of?
- Are there projects/initiatives that we want to add?
- Are there projects/initiatives we want to recommend that OHA add?
