Keep an eye on our listserv emails for updates throughout the session.</p> <p>Relevant to committee:</p> <ul style="list-style-type: none"> - In OHA POP (The Governor’s Budget has not been released yet so we don’t currently know if the OHA POP is included) Request for more information and better data collection around SOGI Data. - Request that Oregon Education Association is putting forward that schools require the Student Wellness survey annually. This would help to address data gaps as only about 30% of schools are currently completing the survey. Annette would appreciate it if some folks from this committee could look at the legislation and see if there are any concerns about the current language. No concerns about the legislation was voiced during the meeting. <p>Elissa asked if there is anything Annette needs from the committee in support of. If people are interested in testifying in support of the bill during session, let Annette know. David Kerr is interested in reviewing the bill and providing feedback.</p> <p>OSU Updates are tabled for February’s meeting.</p>

Potential tasks for Data & Eval Committee (brainstorm ideas)

- Catalog a list of data sources.
- Learning collaborative for people working in suicide prevention who are working in data, best practice, gap identification.
- Score Card—assess how we are doing to get aligned with national standards of suicide prevention data. Focus on how to improve this.
- Improving the data literacy and competency of people across the state.
- Build the capacity of the field to be more data driven.
- Data coordination—what metrics are most important to collect on a local level and how do we feed these into the larger scheme of things. Review the data dashboard on a routine basis.
- Who holds the task of providing data sources and the data dashboard for us to review.
- Think tank brain trust for individual research presentations.
- What are the universe of data metrics? How does this connect - protective and risk factors.
- We review the data, understand the strengths and gaps, a forum for learning and supporting each other who are doing in research.
