This Thursday, the new revised health standards will be discussed at the state school board. There is still time to submit comments on these if you are able to review and submit your thoughts. 9:10	Youth Focus Groups and Findings – Where to go from here? Claire Kille & Jenn Fraga		Amy said she would like to be a thought partner with focus groups and how to move forward with feedback moving forward. Claire asked what we should do with the feedback received? Who should know about this information? <ul style="list-style-type: none">- I think some kind of 1 page report on each focus group with key findings and recommended strategies. If we were to do this, ODE could help distribute this information out.- Systems of Care, which is working hard to get more youth feedback, and is cross sector.
	Group Question & Share	1. In what ways can a school district measure / monitor if their plan is effective? How do we define effective? 2. In what ways can a school building measure / monitor if their plan is effective? How do we define effective?	Not discussed today.
